# ANALYST OPINION INDICATOR for MT4

## Set up & Configuration Guide

## CONTENT

Description	1	Indicator's use and set up	4
Subscribing to TRADING CENTRAL feed	1	Features and parameters	5
Installation process	1	Upgrade process	6

## DESCRIPTION

**TC.TechnicalAnalysis is an easy to install, multilingual customizable Indicator designed to help traders make profitable decisions 24/5!**

This indicator will superimpose TRADING CENTRAL's analysts research, forecasts, commentary and key levels (support / resistance / targets / stop pivots) onto MT4 live charts on most actively traded instruments.

Based on selected timeframes it will display the latest opinion of our analysts: whether on an intraday (30min chart), short term (daily chart) or midterm (weekly chart) basis. You can program and fill in orders based on analysts levels.

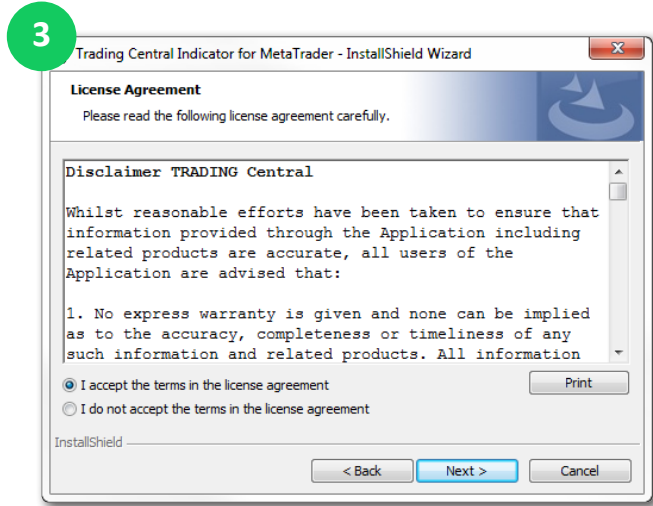

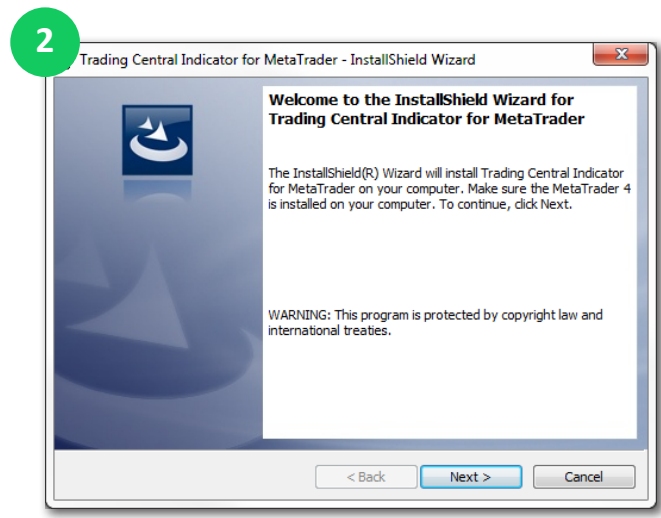

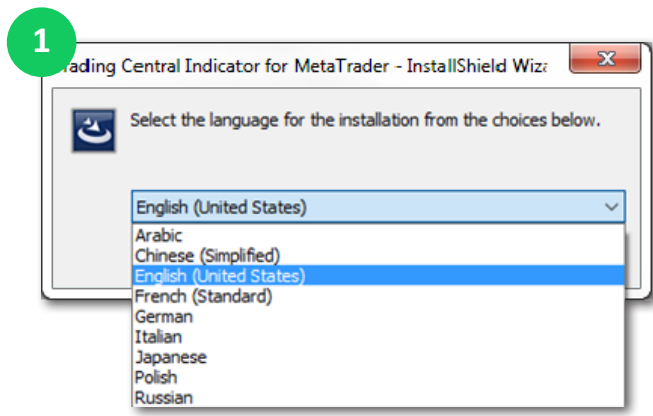

## SUBSCRIBING TO THE TRADING CENTRAL LIVE FEED

The TRADING CENTRAL Indicator automatically delivers live data to licensed broker. If the Indicator does not work on your MT4, your broker is probably not licensed by TRADING CENTRAL. In this case please contact your broker and request a license.

## INSTALLATION PROCESS

The latest version of our Indicator can be downloaded from: [https://feed.tradingcentral.com/ws\\_MetaTrader.aspx/DownloadInstaller](https://feed.tradingcentral.com/ws_MetaTrader.aspx/DownloadInstaller)  
You need just to follow some simple steps proposed by the installer:

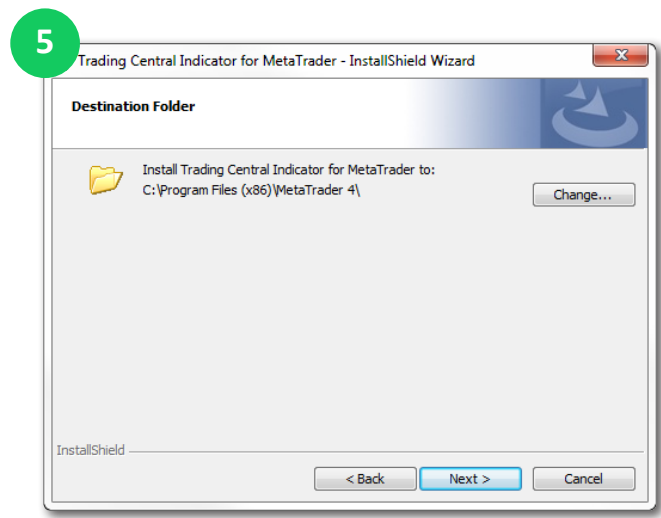

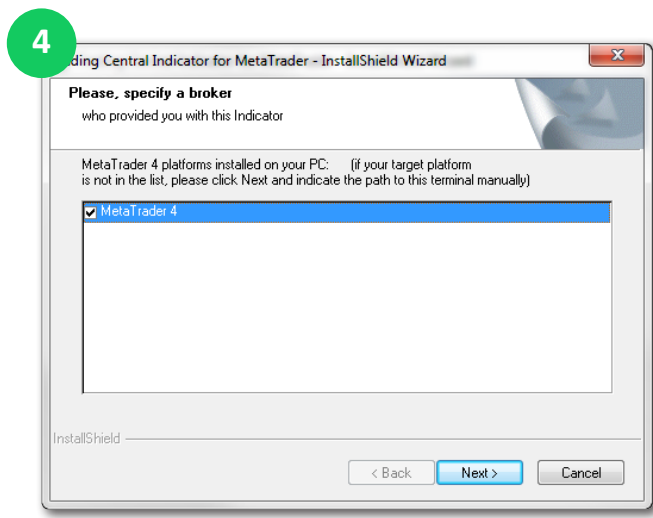

# INSTALLATION PROCESS

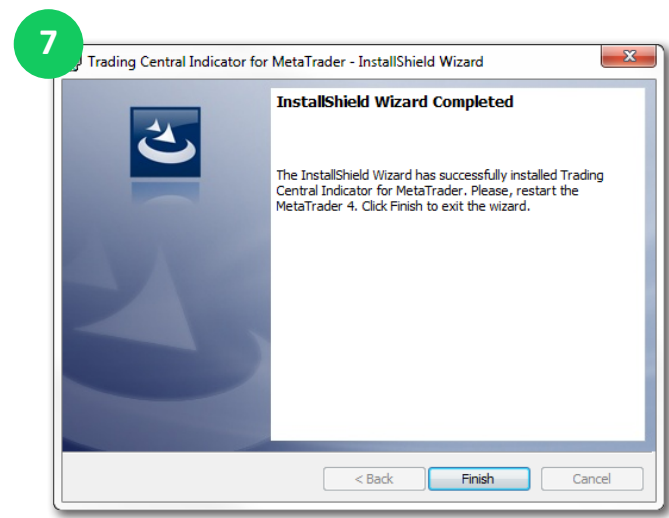

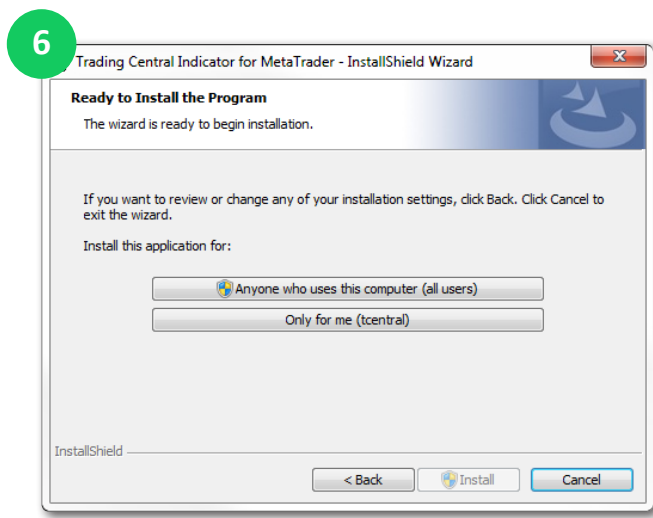

## Caution

If you have several MetaTrader platforms installed, you need to choose the platform corresponding to the broker, who provided you with this Indicator.

If you can't find your platform (4), please indicate the proper path to the MetaTrader folder you use (5).

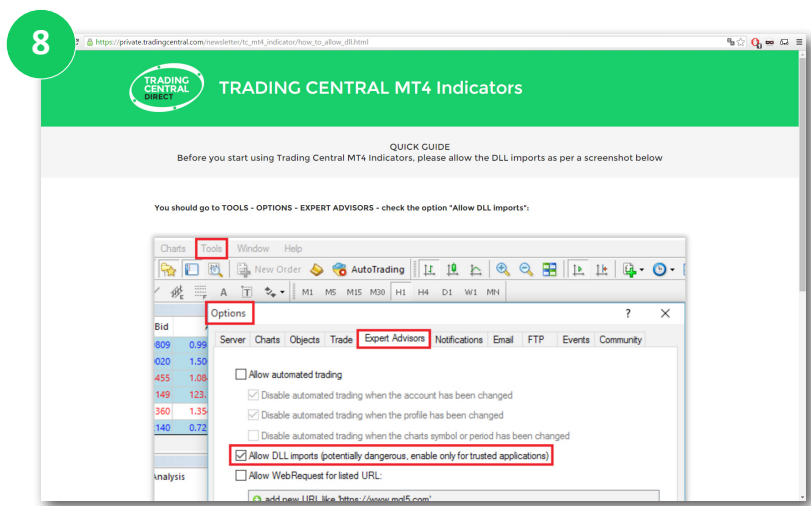

# INSTALLATION PROCESS

Now restart your MetaTrader.

## Enable DLL

Once the installation is completed, there is an automatic page opened in the browser (8), showing how to activate DLL imports options once for all indicators. If you accidentally closed this window, please follow the link : [https://private.tradingcentral.com/newsletter/tc\\_mt4\\_indicator/how\\_to\\_allow\\_dll.html](https://private.tradingcentral.com/newsletter/tc_mt4_indicator/how_to_allow_dll.html)

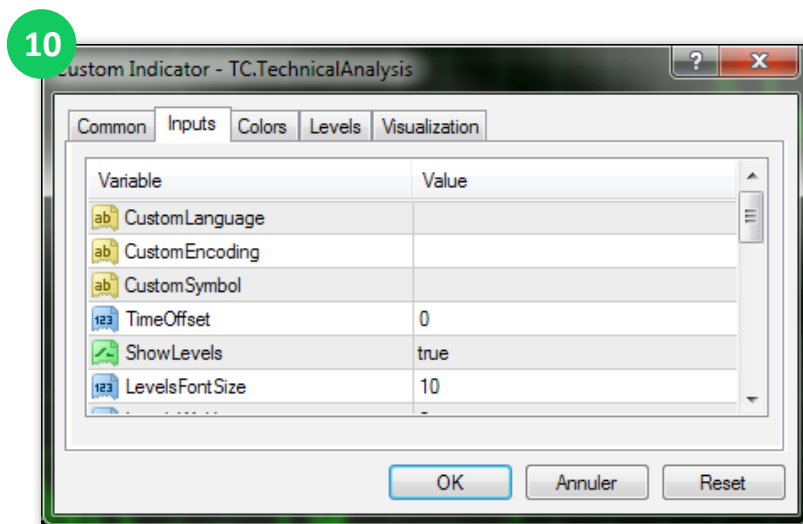

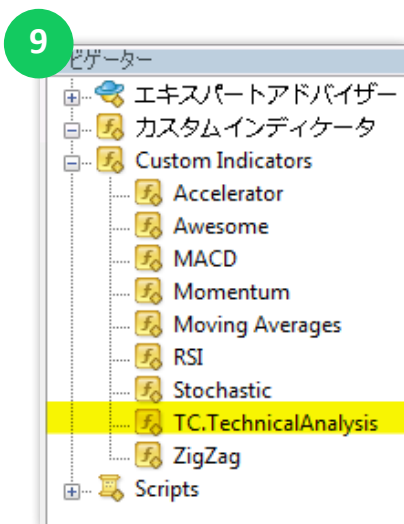

# INDICATOR'S USE AND SET UP

Go to Navigator > Custom Indicators and look for TC.TechnicalAnalysis  
 Drag and drop the Indicator to a chart (9).

In the window that appeared when your drag and drop the Indicator to a chart select the Inputs tab (10).

Here, you can set any parameters you wish to personalize the TC.TechnicalAnalysis Indicator. You have the possibility to choose one of 32 languages provided by TRADING CENTRAL by specifying the necessary code in the "CustomLanguage" parameter (see Features and Parameters). Leave the CustomLanguage parameter empty if you want the Indicator to use the MetaTrader interface language you use currently.

If you would like to see our analyses in languages that are not available in the MetaTrader interface, just put the corresponding code into the CustomLanguage field.

# FEATURES AND PARAMETERS

HE	HEBREW	BN	BENGALI																																																															
Our opinion on selected period (at the top right corner)	Display: true Font size: 26 Font color for RISE opinion: Green Font color for DECLINE opinion: Red	✓ (ShowPreference) ✓ (PreferenceFontSize) ✓ (PreferenceRiseColor) ✓ (PreferenceDeclineColor)																																																																
The legend explaining the meaning of our levels	Display: true Font size: 18	✓ (ShowLegend) ✓ (LegendFontSize)																																																																
Alerts on horizontal levels (when one of our levels is crossed upwards or downwards by the price level)	Enabled: true	✓ (EnableAlerts)																																																																
Possibility to manually set the product to analyze	Automatically retrieved by the Indicator (when you apply it to a chart)	✓ (CustomSymbol) Normally there is no need to set it manually, because we have all product codes used by brokers and this code is retrieved automatically from your chart. But, if the matching is not correct, you can type yourself here the correct symbol.																																																																

# UPGRADE PROCESS

When a new version of the Indicator is available, a user gets a notification inside their MetaTrader and the loading starts automatically after clicking the OK button.

The previous version is no longer valid.
