

Lunch Presentation with Sunpower Group Limited (SPWG SP)

Date: 26 April 2019, Friday

Time: 12pm to 1pm

Venue: KGI Office 13AB

Company Background:

Sunpower Group (5GD SP) is a China based company providing energy-saving solutions, waste heat recovery, and clean steam. Their green investment segment, focusing on clean steam, would be their key value creation driver going forward. Sunpower Group will continue to benefit from China's anti-smog measures as an exclusive supplier of steam to industrial customers that are typically held under a 30-year concession agreement.

We have invited Sunpower Group's CEO, Mr Frank Ma to give the outlook and strategy of their companies. It will be a small group meeting to facilitate more Q&A time with management.
